There are no prerequisites for this course.

WHY TRAIN WITH EA?

Enterprise Architects is a recognised leader in strategy and architecture training and consulting. Our team supports clients globally and has delivered architecture solutions for organisations across five continents.

The TOGAF® course is delivered by our own experienced practitioners and is accredited by The Open Group.

Our instructional design draws from leading contemporary methods and ensures a superior learning experience to alternative course offerings.

THIS COURSE ADDRESSES THESE BUSINESS CHALLENGES

› Bringing structure and clarity to complex business planning issues

› Aligning business capabilities with your business mission, vision and strategy

› Identifying, assessing and prioritising investments

› Directing business systems change and improvement programs

Since its release in early 2009, TOGAF Version 9 has become firmly entrenched as the global standard architecture framework.

Enterprise Architects' hands-on, classroom based training course covers the complete TOGAF® 9 framework and prepares you to achieve internationally recognised TOGAF® 9 Certified status by sitting The Open Group's Level 1 and 2 exams.

CERTIFICATION

This course prepares students for TOGAF® 9 certification.

TOGAF® 9 certification is a globally recognised qualification for architecture practitioners.
