

# TOGAF® 9 LEVEL 1 CLASSROOM BASED LEARNING & CERTIFICATION

PARTICIPATE IN ONE OF OUR TOGAF® TRAINING AND CERTIFICATION COURSES AND JOIN THE ELITE OF CERTIFIED ARCHITECTS IN DEMAND GLOBALLY.

## OVERVIEW

TOGAF®, The Open Group Architecture Framework, defines a detailed method and supporting resources for developing an Enterprise Architecture. TOGAF® 9 is the latest version of The Open Group's framework.

Enterprise Architects' hands-on, classroom based training course covers the basic concepts of TOGAF® 9 and prepares you to achieve internationally recognised TOGAF® 9 Foundation status by sitting The Open Group's Level 1 exam. The purpose of Level 1 qualification is to provide validation that you have gained knowledge of the terminology, structure and basic concepts of TOGAF® 9 and understand the core principles of Enterprise Architecture and TOGAF®.

This course also provides you with the knowledge prerequisite to obtaining maximum benefit from our TOGAF® 9 Level 2 course should you wish to take your TOGAF® capabilities to the next level at a later stage and achieve TOGAF® 9 Certified status. The aim of certification to Level 2 is to ratify that, in addition to the knowledge and comprehension of Level 1, you are able to analyse and apply this knowledge.

## PREREQUISITES

There are no prerequisites for this course. TOGAF® 9 Level 1 Training is for professionals who have no previous TOGAF® Training or Certification.

## WHO SHOULD ATTEND?

The course is suitable for beginners and experienced Architects, as well as individuals who interact with architecture teams in their roles, including:

- + Enterprise Architects
- + Business Architects
- + Change Managers
- + Business Analysts
- + Program / Project Managers
- + Solution Architects
- + Application Architects
- + Data Architects
- + Infrastructure / Technology Architects
- + Security Architects
- + Technical Designers
- + Technology Vendors
- + Professional Services Organisations

## CERTIFICATION EXAM

The course will prepare you for the Level 1 - Foundation exam. Upon successful completion of the optional exam, you will receive an internationally recognised certificate from The Open Group.

## COURSE DURATION & FORMAT

TOGAF® 9 Level 1 Training is conducted in a classroom environment over 2 days. Training is led by one of Enterprise Architects' certified TOGAF® 9 instructors, each of whom has extensive experience as a practising Architect and brings real world experience into the classroom.

## COURSE CONTENT

The course covers the following key themes across 14 interactive modules:

- + The basic concepts of Enterprise Architecture and TOGAF®
- + The new concepts introduced to TOGAF® in version 9
- + The core concepts of TOGAF® 9
- + The key terminology of TOGAF® 9
- + The concepts of views and viewpoints and their role in communicating with stakeholders
- + The concept of building blocks
- + The Architecture Development Method (ADM) cycle and the objectives of each phase, and how to adapt and scope the ADM
- + How each of the ADM phases contributes to the success of enterprise architecture
- + The key deliverables of the ADM cycle
- + ADM guidelines and techniques
- + The concept of the Enterprise Continuum and repository; its purpose and constituents
- + How Architecture Governance contributes to the Architecture Development Cycle
- + The TOGAF® reference models
- + The TOGAF® certification program
